WATER REUSE: WASTE TO RESOURCE

MONDAY, JULY 10, 2023 | 8:00 AM–4:00 PM

AREC (AUB FARM) | HAUSH-SNEID

Complimentary Transportation is available from Beirut | Hazmieh | Aley | Zahle
If you have further questions, please contact Rania Bou Said: rb159@aub.edu.lb

**Mediterranean wAter
management solutions for a
sustainable aGriculture supplied
by an Online collaboration
platform (MAGO).**

The workshop disseminates MAGO's research outcomes on treated wastewater and promotes safe reuse. Its purpose is to highlight treated wastewater's reuse public perception, its potentiality in bridging the water gap under climate change scenarios, the effect of using treated wastewater and sludge on soils, plant growth, and crop quality, and the usage of phytoremediation as nature based treatments. Finally, it will introduce the Intreactive Multi-stakeholder Treated Wastewater Tool.
